

CANYON ARC

LEARNING SYSTEMS

From expertise to performance.

Canyon Arc develops practical, repeatable learning systems for public-safety agencies, training organizations, and prime contractors.

CORE CAPABILITIES

Curriculum Review & Modernization

- Review learning objectives, content, assessments, sources, instructional flow, and instructor usability.
- Deliver prioritized findings, modernization roadmaps, and integrated course packages.

Curriculum Development

- Translate policy, standards, research, and subject-matter input into objectives, lesson plans, instructor guides, student materials, and implementation tools.

Assessment & Scenario Design

- Develop written and performance-based assessments, test banks, answer keys, evaluation rubrics, and remediation criteria.
- Build scenario packages around observable decision-making and performance.

Prime & Subcontract Support

- Provide public-safety expertise and instructional-development capacity within larger training and government projects.

DIFFERENTIATORS

- Operationally grounded. Direct law-enforcement and academy instructional experience informs each project.
- Instructor-centered. Materials are built for consistent delivery and practical use.
- System-level alignment. Objectives, instruction, practice, scenarios, and evaluation work together.
- Principal-led. The founder directly performs and oversees the work.

REPRESENTATIVE EXPERIENCE - PRINCIPAL

These examples reflect Steven Brooks's professional experience before Canyon Arc LLC was formed; they are not Canyon Arc client past performance.

- Academy curriculum modernization and instructional redesign
- Scenario-based active-violence and integrated practical training
- High-liability practical-skills instruction and performance evaluation
- Instructor evaluation, learner assessment, and training-system development

FOUNDER & PRINCIPAL

Steven A. Brooks is a public-safety instructor and curriculum developer with more than 15 years of law-enforcement experience and extensive academy instructional experience. His background includes curriculum redevelopment, scenario-based instruction, practical skills, use-of-force and legal instruction, assessment design, instructor development, and training-program implementation.

Selected background: Virginia DCJS General Instructor; Virginia DCJS Control Tactics Instructor; academy curriculum development; scenario and performance evaluation; recipient of the 2024 David Vice Award for Instructor Excellence.
